Willetton Rotary Fair a Huge Success

Dr Mike Nahan, the Member for Riverton congratulated the Rotary Club of Willetton the success of their Willetton Rotary Fair held on Sunday 27 March 2011 at the Willetton Sports Oval opposite Southlands Shopping Centre in Willetton.

"It is difficult to estimate the numbers of people attending but there were large numbers of people braving the heat of the day to come along and enjoy the community festivities," said Dr Nahan.

"I congratulate President Rob Webster and his team on a great effort to co-ordinate what is virtually a mini Royal Show. Rob and his fellow members have worked very hard for months to coordinate the logistics needed to provide a wide range of activities, products and entertainment to ensure the event was such a success."

"There was a great fun atmosphere at the Fair with lots of enjoyment and interaction between the community and the stall holders. The colourful carnival drummers from Wasamba got everyone into a party atmosphere early on in the day and there were lots of local community singing and dancing acts on the stage and other events throughout the day to keep people entertained."

Dr Nahan said that funds raised from the community Fair would be used by the Rotary Club of Willetton to help several worthy causes.

"The funds raised from the event are going to assist local and interstate disaster relief programs, including the devastation from the fires in Kelmscott and Roleystone, the Carnarvon floods and the Queensland floods," said Dr Nahan.

"While raising funds is one of the outcomes of the event, the main focus is to bring the community together and the Club was extremely successful in doing that. The Fair had a wonderful community feel to it with great interaction between stall holders and patrons."

"If you didn't make it to the Willetton Rotary Fair this year, you missed out on a fun day. I have no doubt that the Club has already started its plans for next year's event and that it will be just as enjoyable and just as successful."
